Yarrabee Boer Goat Stud, operating since 1998, and Yarrabee Dorper Stud, since 2011, breed structurally sound goats and sheep, reared under paddock conditions.

HUSBANDRY / HEALTH OF ADULT DOES / BUCKS

- **Age:** Ranging from 1.5 to 5.5 years, as per birth date – most does over two years of age have reared kids successfully, annually, from two years of age. (Assessed to be of sound teeth, feet and udder).
- **Feed:** Received unlimited access to pasture in paddocks of variable terrain; no supplementary feeding since kids weaned in November / December. Note ZERO GRAIN fed to adult goats in lead up to sale.
- **Health:** Previously vaccinated twice as kids, and then twice annually with Glanvac 3, (with a recent booster of Ultravac 5 in 1). Recently drenched for internal parasites.
- **Predator protection:** Accustomed to Maremma guardian dogs.

HUSBANDRY / HEALTH OF YOUNG GOATS (2 polled bucks)

- **Vaccinated:** Vaccinated twice as kids (Oct + Nov 2024)
- **Feed:** Ad lib access to pasture in paddocks of variable terrain; alongside restricted (4 to 5 times per week) supplement of goat grower pellets from weaning to sale.

HEALTH STATUS

- Yarrabee is not, or suspected of, being infected, with Johne's Disease or CAE.

REGISTRATION

- **All REGISTERED FULLBLOOD bucks and does** are registered with **BGBAA** - transferred registration certificates will be supplied.
- Commercial and composite animals are not registered.

SUGGESTED FUTURE MANAGEMENT OF GOATS

- **Adult Does:** Not pregnant at time of sale, ready to breed immediately.
- **Bucks – 18 months:** Ready to breed with 30 to 50 does.
- **Young Bucks:** Allow to acclimatise for a few weeks and then ensure nutrition is adequate and mate them to up to 25 does each.

HUSBANDRY / HEALTH OF EWES / RAMS

- **Breeding:** All ewes have been joined to either of the (Type 4) stud sires (as per catalogue) from 26/02 to 2/04/25. They are not guaranteed pregnant but are very likely to be – and will most likely lamb from 21/07 to 27/08/25.
- **Feed:** Received unlimited access to pasture in paddocks of variable terrain; no recent supplementary feeding.
- **Health:** Previously vaccinated annually in July with Glanvac 3 (and twice when lambs). Recent booster of Ultravac 5 in 1. Drenched prior to sale.
- **Shearing:** All sheep (that were not already shedded) shorn as required in December or January.
- **Predator protection:** Accustomed to Maremma guardian dogs.

HEALTH STATUS

- Yarrabee is accredited free of Ovine Brucellosis.

REGISTRATION

- Registered rams are registered with DSSA.
- All registrable ewes will be registered per buyers request.
- Transferred registration certificates will be supplied.
- Commercial animals are not registered.
